

The Colleton Primary School

The Colleton School Motto:

Esse Quam Videri To be, rather than to seem to be.

Core Values

- To inspire each child to seek to maximise their potential, academically and socially, and to provide them with the education to do so, acquiring skills for independence that will enable them to become valued members of society.
- To ensure that the highest standards of learning and teaching are central to everything we do.
- To be a school where children and staff are happy, valued and safe.

The Values in Action

- We operate as a team, using flexible, innovative teaching methods promoting learning that is both challenging and fun.
- We ensure that we encompass good practices and apply common sense in order that we can best encourage children and colleagues to maximise their potential.
- We ensure that our knowledge of the curriculum is comprehensive, which allows us to encourage creativity through learning.
- We deliver a curriculum that is relevant in today's society, always encouraging personal, moral, physical and social development; constantly raising self-esteem through learning.
- We listen and endeavour to communicate effectively with our whole community.
- We have high expectations of everyone in the school community.
- We actively promote Values Based Education through exploration of common ethical language so that our values guide our actions and behaviour as a whole school community.
